

# Technion Formula Student

**Come to be a part of the greatest new thing!**

## **World Formula Student Competition**

The SAE organization - Society of Automotive Engineering, organizes thirty years various events and contests designed for students of engineering.

The most prestigious competition in the organization's activities is Formula Student ([www.formulastudent.com](http://www.formulastudent.com)), in which students are required to research, design and manufacture real Formula car.

Over 250 student groups from the most prestigious universities in the world, participate in contests Formula students.

## **Establishing the Technion's Formula Team**

Currently established formula team of the Technion, which includes dozens of students from the faculties of mechanical engineering, aeronautics, engineering and industrial materials management.

Technion vision is to establish Formula Student Team, which will represent the Technion Formula Student competition and promote students' exposure to motor engineering field. All members of the team, doing their job voluntarily out of a desire to improve knowledge in the field of design, accumulation of advanced industrial manufacturing experience, and to promote motor sports in Israel.

## **Invitation for sponsor - Become a Partner**

We invite industry companies, business entities and individuals who want to join Formula One team project establishment of the Technion, to sponsor this important project and to become partners in the project.
